Dear Mr. Hedberg:

We are sending you a copy of the following notices and plans:

BLM Serial Number	Operator
UT-055-91-03P	Paul Lamoreaux
UT-055-91-04P	Crown Resources, Inc.
UT-055-91-06N	Manville Sales Corporation
UT-055-91-07N	Crown Resources, Inc.
UT-055-91-08N	Crown Resources, Inc.
UT-055-91-09N	Anchor Aquarium Products

These are sent to you as per the Memorandum of Understanding between our two agencies.

The plan filed by Mr. Paul Lamoreaux is a response to a Notice of Noncompliance which we had previously issued. Mr. Lamoreaux is in the process of backfilling one of the two obsidian pits on his claims in response to an order from this office.

The plan filed by Crown Resources, Inc. is a result of a determination that the drilling that they currently have under permit will disturb a total of five acres and any additional drilling will exceed this ceiling. The other two Crown notices are different prospect areas, although it would appear that your regulations would treat all three actions as one proposal.

The notice from Manville Sales Corporation is for an additional bulk sample from a pit which they opened in 1989. This bulk sample will disturb no new ground.

The Anchor Aquarium Products notice is for a new pit that will produce decorative stone.

We are beginning our Environmental Assessment (EA) process at this time for those actions which are plans. Should you have concerns which need to be addressed in this EA please call Phil Allard at (801) 743-6811. We look forward to seeing you at the meeting scheduled with Crown Resources, Inc., on April 3, 1991 at 10:00 am.

Sincerely,

Dave Henderson
Area Manager
